WHAT IS PRODUCED WATER MIDDLE EAST?

Following a successful program in 2018, Produced Water Middle East returns in 2019, located in Muscat, Oman. Produced Water Middle East is the only conference in the region that brings together oil and gas professionals focused on produced water issues.

As oil producers look to increase their output from aging wells, and with capital expenditure on Produced Water projects expected to double in the next five years, it is more important than ever that professionals working within the region stay abreast of emerging trends, industry best practice, new technologies and approaches for produced water treatment.

The event combines keynote speeches, technical papers, and unrivaled networking opportunities.

Don't miss your opportunity to join 200 industry members from across the world for 2 days of focused discussion of produced water opportunities in the region.

WHAT DO OUR DELEGATES THINK?

"The PWS provides a platform to exchange and gain an understanding of the challenging issues in handling produced water from the operator's as well as the service provider's perspective."

- WALLY GEORGIE, MAXOIL PROCESS CONSULTANCY

"An excellent showcase of technology and expertise that we look forward to attending every year. The GWI staff and technical committee put together an outstanding event!"

- CHRIS CATALANOTTO, SIEMENS

"Great diversity of attendees. Workshop was great. Also roundtable sessions made it easier to network and understand certain aspects of work."

- FARAAZ AHMAN, UNIVERSITY OF MANCHESTER

A MESSAGE FROM THE PRESIDENT

HANI AL KHALIFA, SENIOR OPERATIONS ADVISOR, SAUDI
ARAMCO, PRESIDENT, PRODUCED WATER SOCIETY MIDDLE EAST

We are excited to announce that the Produced Water Society is partnering with PDO, Oman Water Society, and Oman Ministry of Oil and Gas, to bring Produced Water Middle East to Oman in October 2019. Oman has a unique range of produced water issues, and Omani oil producers are pioneers in thinking of produced water as a resource not a cost and leaders in applying new technologies and approaches.

Because of this Oman is the perfect venue for the 3rd Produced Water Middle East conference that will bring together over 200 produced water leaders for 2 days of technical presentations and networking and discussion of the latest best practices and challenges in produced water management in the region. The event continues to create a community of Produced Water professionals with a shared depth of knowledge, and to catalyse change in Produced Water management in the region.

We look forward to meeting you all in October!

Produced Water Middle East is produced with the support of the **Oman Water Society**, **Petroleum Development Oman**, and the **Oman Ministry of Oil and Gas**, held under the auspices of the **Oman Ministry of Agriculture and Fisheries**.

VENUE

The venue for this year's Produced Water Middle East conference is the Sheraton Oman Hotel in Muscat.

Built in 1985 and completely renovated in 2016, the Sheraton Oman Hotel is a landmark in the city of Muscat. Located on top of Ruwi, the financial and business district of Muscat, the hotel is the tallest building in the city and has long been a part of the social fabric of the local community.

We have arranged a reduced booking rate for delegates of Produced Water Middle East. You can reserve your hotel room using the link on our website.

Visit producedwatermiddleeast.com to find out more and to register your place.
